Dumping

ENSOL, the renowned name in Solid Waste Management System, now offers the all new, time and cost saving, maintenance free, **Container Carrier System**.

The **Container Carrier System** is custom made so as to be drawn by any tractor, making it very useful for garbage collection.

SALIENT FEATURES :

The **Container Carrier System** consists of hydraulically container and bin lifted arrangement sturdy designed lifting arm. The “simple to operate” controls can be manned even by unskilled personnel. All these features combined to give larger volume garbage collection and transported using the “relay” system wherein the **Container Carrier System** puts in an empty container in place and take away the one which is full to the dumping area for unloading.

APPLICATIONS :

- ◆ For safe and hygienic collection, storage and transportation of garbage.
- ◆ For quick and efficient lifting, transportation and unloading.
- ◆ For Multi point ‘pick up’ application of system through standard containers.
- ◆ Suitable for handling Solid waste.
- ◆ Continuous ‘relay’ system achieving large volume of garbage transfer.
- ◆ Suitable for secondary collection from by-lanes using container ‘relay’ system.

ADVANTAGES :

- ◆ Easy to operate as no special skill is required.
- ◆ Quick and efficient lifting, transportation and unloading.
- ◆ Popular system-low capital cost.
- ◆ Ideal for multiple point collection system with low operation cost.
- ◆ Very low maintenance cost.
- ◆ Modern equipment to increase dignity of labour.

MAINTENANCE-NO PROBLEM!

Maintenance is virtually nil for these rugged machines, and at the time when they need to be serviced, our after sales service is just a phone call away.
