## Platforms for Electric Maintenance for By-lanes and Narrow Streets

Rickshaw Mounted Hydraulic Elevating Platform

**ENSOL**, the renowned name in the Utility Equipments, now offers the all new, time and cost saving, low maintenance, **Rickshaw Elevating Platforms** for high reach.

The **Rickshaw Elevating Platforms** is custom made so as to snugly fit onto three wheel auto chassis, making it very useful for Electric Pole maintenance or other works at high reach.

### SALIENT FEATURES :

The **Rickshaw Elevating Platforms** consists of mechanised and hydraulic lifting arrangement sturdily designed lifting arms. The 'Simple to operate' controls can be manned even by unskilled personnel.

### Overload Protection Valve :

Stabilizer to boom interlocks, i.e., booms cannot be operated unless stabilizers are deployed.

### Emergency Hand Pump :

To enable stowing of equipment in case of hydraulic pump / engine failure.

### Slewing :

For hydraulic elevating platform 270° slewing is provided by hydraulically powered slew rams, a rack and pinion arrangement. The deep pedestal forming the slewing structure is provided with large bearings to provide smooth slewing operation. Slewing speeds are precisely controlled by using fire restrictors in the circuit.

### Control :

Dual controls are provided, one at base and the other at the operator's cage.

### Decking :

Nonslip decking with shock proof side rails to provide maximum protection and best possible excess to the equipment.

Rickshaw Trailed Hydraulic Elevating Platform

**Rickshaw Elevating Platforms** are custom made in reach upto 7 mtrs. and for **Tower Ladder** upto 11 mtrs.

### MAINTENANCE-NO PROBLEM !

Maintenance is virtually nil for these rugged machines, and at the time when they need to be serviced, our after sales service is just a phone call away.

### ADVANTAGES :

- ◆ Easy to operate as no special skill is required.
- ◆ Quick, efficient and safe lifting and transportation.
- ◆ Popular system-low capital cost.
- ◆ Ideal for Electric maintenance in By-lanes and narrow streets.
- ◆ Very low maintenance cost.
- ◆ Modern equipment to increase safety and efficiency of workman.

Elevated Access Platform

Telescopic Access Platform

**ENSOL**, the renowned name in the Utility Equipments, now offers the all new, time and cost saving, low maintenance, **Access Platforms** for high reach.

The **Access Platforms** is custom made so as to snugly fit onto LCV chassis, making it very useful for Electric Pole maintenance, life saving and fire fighting.

### SALIENT FEATURES :

The **Access Platforms** consists of hydraulic lifting arrangement sturdily designed lifting arms. The 'Simple to operate' controls can be manned even by unskilled personnel.

#### Overload Protection Valve :

Stabilizer to boom interlocks, i.e., booms cannot be operated unless stabilizers are deployed.

#### Emergency Hand Pump :

To enable stowing of equipment in case of hydraulic pump / engine failure.

#### Slewing :

For models 12, 13 mtrs. 365° slewing is provided by hydraulically powered slew rams, a rack and pinion arrangement. The deep pedestal forming the slewing structure is provided with large bearings to provide smooth slewing operation. Slewing speeds are precisely controlled by using fire restrictors in the circuit.

#### Control :

Dual controls are provided, one at base and the other at the operator's cage.

#### Decking :

Nonslip decking with shock proof side rails to provide maximum protection and best possible excess to the equipment.

**Access Platforms** is custom made in reach upto 15 mtrs.

### MAINTENANCE-NO PROBLEM !

Maintenance is virtually nil for these rugged machines, and at the time when they need to be serviced, our after sales service is just a phone call away.

### ADVANTAGES :

- ◆ Easy to operate as no special skill is required.
- ◆ Quick, efficient and safe lifting for Pole Maintenance.
- ◆ Popular system-low capital cost.
- ◆ Ideal for Electric maintenance and uses in Life saving and fire fighting in case of high reach.
- ◆ Very low maintenance cost.
- ◆ Modern equipment to increase safety and efficiency of workman.
- ◆ Minimum traveling time within city.
